501-19

501-19

Single Column Conset Design

'Center' sturdy and compact, a symmetrical design with access to all sides.

'Basic' excellent for grouping tables together.

'Design' lends a unique style to this series with an attractive crescent shaped base.

Options for wheels and a rechargeable battery pack

make this a very powerful product series in more ways than one.

The column and components can be purchased individually and up to 6 can be synchronised.

Electric height adjustable desks since 2000

501-19

Electric height adjustable desks since 2000

501-23

501-23

Open Conset Design

Very strong and stylish with an integrated cable tray.
Its expandable length makes the frame adjustable for many top sizes.
Perfect for meeting tables and large work surfaces.
Optional 3-column versions for long meeting tables and L-shaped configurations. Frame peak lifting load 200 Kg
Up to 6 of the powerful large columns can be synchronised
Possibilities include trading desks with multiple screens above.

Electric height adjustable desks since 2000

501-25

501-25

Changes are here...

501-25 and 501-29 has been merged to make one new series using the 501-25 item codes. All the traverse crossbeams are the same as before and so are the feet, the vertical column has a minor cosmetic differences but all significant changes are hidden inside to give a more refined operation with an impressive lifting capacity of 120kg.

This new internal mechanism combined with the exceptionally high inherent strength given by the upper and lower crossbeams makes the new 501-25 series one of the toughest frames around. Ideal for schools and student accommodation or ideal for places of high demand.

2 and 3 Legged L shape versions are now on-line

Electric height adjustable desks since 2000

General information - Before you buy!

ONE MOTOR THAT DOES IT ALL

Prolonged sitting has become part of everyday life for many office employees. When you're sitting still in front of a computer for hours every day, the risk of injuries increases and it influences your level of energy. A height adjustable desk from ConSet gives you the ability to go from the sitting to the standing position whenever you wish at the push of a button. The technique in and around the motor is the heart of the desk. It ensures calm and gentle movements when you wish to move the table top either up or down and it ensures that the table top is always evenly adjusted.

With ConSet you get a one-motor-desk that does it all.

- Reliable
- High quality
- Great lifting capacity
- High construction strength
- Good prices

STRENGTH & STABILITY

Stability means everything when you're choosing an office desk. Every height adjustable desk from ConSet is made from quality materials and meet both the EU and Danish working environment authority's demands on a flexible and ergonomic workplace. This ensures you a stable and long lasting desk - and greater employee well-being. Unlike many tables that have two motors, a ConSet table withstands an uneven load. This means that you can place your office equipment anywhere on the table top. The total load on the desk frame must always be within the maximum working load that is specified for each ConSet product.

ENVIRONMENT

At ConSet we think it is important to minimize environmental impacts. We want to take responsibility for ensuring that our products are made respecting the environment. We do this in several ways:

- Our wood products are FSC labelled, which is a guarantee that you can buy our tabletops and other wood products in good conscience. FSC criteria prohibits conversion of forests or any other natural habitat.
- All electronic equipment meet RoHS framework for the reduction of hazardous substances in electronics, whereby the environmental impact is minimized.
- Through Elretur (Denmark), we ensure that electronic waste is managed environmentally under the WEEE directive.

CE MARKING & PRODUCT APPROVALS

All ConSet electric height adjustable desk frames are CE marked in collaboration with the Technological Institute in Denmark. CE marking is a requirement for height adjustable desk frames and it allows you to be sure that the producer has been through all aspects of security risks. Furthermore, our power supplies are GS-tested (German standard).

EN 527-1/2/3: Dimensions / Mechanical safety requirements / Methods of Test for the Determination of Stability and Strength of the structure
DS/EN 12720-21-22: Furniture - Assessment of surface resistance to cold liquids, wet and dry heat.

CONSET - A DANISH COMPANY

ConSet was founded in 2000 in Denmark, and our basic philosophy was that ergonomics should not be expensive. We began with the idea to develop and manufacture high quality electric height adjustable desks and to make them affordable so more people could experience the benefits of sit-stand desks. The company has succeeded well and now has distribution and subsidiaries throughout the world.

Frames

Black (RAL 9004)

Silver (RAL 9006)

White (RAL 9016)

Chrome

Tops

Beech veneer

Maple veneer

Beech melamine
